Summary

Detail-oriented Computer Science and Engineering graduate with a strong foundation in full-stack web development, data structures, and algorithms. Proficient across the MERN stack (MongoDB, Express.js, React.js, Node.js) with hands-on experience building and shipping functional, user-focused web applications. Strong understanding of relational and NoSQL database design, RESTful API architecture, and modern UI development. Demonstrated ability to learn new technologies quickly and collaborate effectively within cross-functional teams.

Professional Experience

Hidden Mind Solutions | Web Development Trainee

Dec 2025 – Jan 2026

- Built and debugged front-end and back-end features for live web applications, applying core HTML, CSS, JavaScript, and Node.js fundamentals in a production-style environment.
- Collaborated with a cross-functional team of developers to design, develop, and maintain web applications, participating in code reviews and iterative feature delivery.
- Worked hands-on with modern web development tooling and version control workflows to support consistent, team-based development practices.

ANWIMAC Technologies Pvt. Ltd. | Web Development Trainee

Jun 2025 – Nov 2025

- Contributed to production-grade web development projects using MERN Stack, improving backend service reliability across two client-facing modules.
- Collaborated with a cross-functional engineering team on feature development, code review, and testing, consistently delivering tasks ahead of sprint deadlines.
- Worked hands-on with modern web development tooling and version control workflows to support consistent, team-based development practices.

Technical Skills

Languages: C, C++, JavaScript

Web Technologies: HTML5, CSS3, React.js, Node.js, Express.js, Tailwind CSS

Databases: SQL (SQL Server), MongoDB

Tools & Platforms: Git, GitHub, RESTful APIs, LinkedIn

Core Concepts: Data Structures & Algorithms, Database Management Systems, Computer Networks

Soft Skills: Communication, Problem-Solving, Time Management, Adaptability

Projects

Library Management System

Tech Stack: React.js, Node.js, Express.js, SQL Server

- Designed and developed a full-stack library management platform to streamline book cataloging, user registration, and borrowing workflows for library staff and members.
- Implemented issue/return tracking and real-time availability monitoring, reducing manual record-keeping and improving operational accuracy.
- Architected the back-end using Node.js and Express.js with a SQL Server database, ensuring reliable data persistence and efficient query performance.

Blogging Platform

Tech Stack: React.js, Node.js, Express.js, MongoDB, Tailwind CSS

- Developed a responsive, full-stack blogging website with secure user authentication, enabling users to create, edit, and publish posts.
- Designed and integrated a RESTful API connecting the React front-end to a Node.js/Express back-end and MongoDB database for content storage and retrieval.
- Built a clean, mobile-responsive UI with Tailwind CSS, focused on usability and consistent cross-device experience.

Education

AITS, Rajasthan Technical University

Bachelor of Technology in Computer Science & Engineering

Sep 2022 – May 2026

Rajasthan, India

St. Teresa Vidya Deep Sr. Sec. School

Higher Secondary Education

July 2019 – July 2022

Udaipur, India

Certifications

ANWIMAC Technologies Pvt. Ltd.

Internship Completion Certificate – IT Department (Full Stack Web Development)

Jun – Jul 2025
